- = Industry
- = Researching

Map Content:

The map displays a vast network of locations, each represented by a colored icon and labeled with a name and a level (e.g., Minmatar, Amarr, Geminata). The locations are interconnected by lines, representing various types of connections or trade routes. The map is organized into 8 columns and 6 rows, with a grid system for navigation. The locations are color-coded according to the legend, indicating their function or status. The map is a detailed tactical representation of the Metropolis system, showing the distribution of various facilities and the relationships between different groups and stations.
